

Your Sound of Success

Team training based on the power of music

My concept:

- Music represents structure, individuality, dynamics, empowerment, timing, harmony, groove and sound, is omnipresent, thus ensuring the sustainability/reproduction of the solutions
- Any employee is a tone, several tones together result in a chord
- The harmonic sound of this chord depends on the person that selects and combines the notes -Leadership!-
- Each team is a band consisting of individualists, individual instruments
- Each instrument has its function necessary for the successful overall sound
- All the answers, solutions, inspirations are contained in a successful song/band

Your existing status:

- Your team consists of many individualists -well-rehearsed and newcomers
- Personal abilities/talents are not used/implemented within the possible framework
- In „off the record talks“, this dissatisfaction is addressed-in the large group hidden
- Lack of communication
- Not clearly defined structures
- Change management processes should be implemented in a targeted, creative and motivated manner

Your desired status:

- Optimal linking of the individualists and their talents to a powerful team
- Clear communication and information, both internal and external
- Each individual should be aware of his/her personal role/task within the team and his/her associated responsibility
- Each of the team should respect the role/duty of the other, support her/him in the sense of the overall result with the own performance
- Company/brand-/product identification
- Fun and motivation despite innovation

The Training:

Your team will find and define

- The individual functions within the band/team.
(Which instrument am I? What contribution do I make to the company's overall sound)
- The positioning of each individual player on the stage, in the team.
- The communication paths/directions (internal/external).
(How do I reach my audience?)
- The future performance/sound (internal / external)
- Solutions and optimization of existing conflicts/dissatisfactions

Be a No1Team and sound like a No1 Hit
